Audit and Financial Control Tools Aimed at Ensuring the Sustainable Performance of Organizations

Message from the Guest Editor

The managers of organizations of different sizes and with different activity objects obtain important advice after carrying out audits or financial control actions. Obviously, as has been demonstrated over time, once the measures required are implemented, they are usually followed by a significant increase in the organization's performance regardless of whether it is a company – private or belonging to a state authority – or a public institution. In this context, we consider, in particular, economic performance, which is quantifiable. Therefore, researchers from around the world are welcome to submit original contributions to this Special Issue of the *Sustainability* journal, which focuses on topics we consider to be of particular interest to a large number of readers, especially since the approaches have to take into account the major constraint that is the obligation to respect a strict/severe normative framework.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
