

Special Issue

Geographical Behavior and Health: Insights for Sustainable Well-Being

Message from the Guest Editors

The scope of this Special Issue encompasses theoretical, empirical, and methodological studies exploring the following themes: Spatial determinants of health: The influence of built environment, urban/rural infrastructure, green space, walkability, food environments, and environmental exposures on health behaviors and outcomes. Mobility and exposure: How daily mobility patterns, activity spaces, and time-use behaviors affect environmental and social exposures (e.g., air pollution, heat, and social isolation).

Technological integration: The use of GIS, GPS, mobile sensing, remote sensing, and AI to map and analyze health-related behaviors at fine spatiotemporal resolutions. Population health disparities: The exploration of spatial health inequalities across different regions, socioeconomic groups, and ethnic minorities. Planning and policy translation: Evidence-based recommendations for urban planning, environmental regulation, health promotion, and sustainability interventions. The purpose of this Special Issue is to bridge the conceptual and methodological gaps between behavioral geography and health geography, emphasizing spatially explicit approaches to sustainable health outcomes.

Guest Editors

Prof. Dr. Haoran Yang

School of Geographic Sciences, East China Normal University,
Shanghai 200241, China

Dr. Xiangfen Cui

Faculty of Environmental Science and Engineering, Kunming University
of Science and Technology, Kunming 650500, China

Deadline for manuscript submissions

30 June 2026

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
