

Special Issue

Advancing Circular Practices and Resource Recovery in Waste Management Systems

Message from the Guest Editors

This Special Issue aims to provide a comprehensive overview of cutting-edge examples and analyses of the advanced practices in the technologies and social systems that support resource recovery and the implementation of circular economies. This Special Issue will cover all types of waste and all aspects of waste management, including treatment, final disposal and recycling. It hopes to disseminate high-quality research and stimulate interdisciplinary discussions—original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: technologies, systems analysis, policy, and social aspects. We would like to offer *Sustainability's* readers stimulating research, providing the latest advancements and prospects in advancing resource recovery and circular practices. Case studies presenting sufficient, reliable, and accurate investigations in a particular region are welcome for this Special Issue. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
