

Special Issue

Advances in Biomass Conversion and Biofuel Production

Message from the Guest Editors

World development reinforces the fact that sustainability or sustainable development is a global issue. According to the WCED (World Commission on Environment and Development, 1987), sustainability or sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs. Biomass energy/resources are abundantly available, CO₂/GHG (greenhouse gas) neutral, environmentally friendly, renewable, and sustainable. They are therefore very important among renewable resources, i.e., geothermal energy, solar energy, etc. This Special Issue is focused on advances in biomass conversion and biofuel production. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following:

- Properties of biomass;
- Properties of biofuel;
- Treatment of biomass;
- Conversion of biomass;
- Upgrading of biofuel;
- Utilization of biofuel;
- Energy systems;
- Other related topics.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
