Marine Coastal Ecosystems: Ecology and Restoration

Message from the Guest Editor

It is our pleasure to announce a new Special Issue of the journal *Sustainability* entitled “Marine Coastal Ecosystems: Ecology and Restoration”. The aim of this Special Issue is to collect studies from various marine and coastal environments, in which authors present recent research regarding the marine environment, the conservation status of habitats and species, and the recovery or restoration of ecosystems. We welcome the submission of original research articles and critical reviews on topics related (but not limited to) the following areas of interest:

- Marine monitoring activities;
- Improvement of coastal and marine knowledge;
- Marine environment restoration;
- Best practice of marine conservation and restoration;
- Sustainable development of marine environments;
- Management plans for marine and coastal habitats.
