

Special Issue

Transportation Technique, Management and Practice: Sustainability and Safety

Message from the Guest Editors

Sustainable transportation is a term that covers many aspects of technology, management and policy. Social and environmental impacts should also be taken into account. Some of the proposed ideas may require changes in travelers' behavior. Therefore, this Special Issue "Transportation Technique, Management and Practice: Sustainability and Safety" welcomes papers that cover detailed solutions, wide area systems or theoretical models of the discussed problems, which will finally lead to increasing safety levels of modern sustainable transportation and will mean that transportation is less vulnerable to emerging threats.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
