Special Issue

Recycling of Materials for Sustainable Development and Circular Economy

Message from the Guest Editors

This Special Issue aims to drive the adoption of sustainable recycling practices that minimize environmental impact, reduce our reliance on non-renewable resources, and enhance economic efficiency. It covers a comprehensive range of topics, including the following: Resource recovery; Sustainable construction materials; Water and energy efficiency; Carbon-neutral processes; Zero waste initiatives; Life cycle and organizational life cycle assessments; The integration of smart grids and smart cities; Innovative recycling strategies and technologies; Case studies on recycling initiatives; The application of circular economy principles in emerging economies; Circular material flow.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
