

Special Issue

Challenges for Business Sustainability Practices

Message from the Guest Editor

The implementation of sustainability practices often demands significant financial investment in technologies and processes. In times when many businesses are trying to navigate rapid technological advancement, increasing competition, changing customer needs, risks in supply chains, increasing operating costs, and shrinking profit margins, investing in sustainable practices may be viewed as an added burden rather than an opportunity. This Special Issue will be devoted to uncovering the challenges, barriers, and inhibitors businesses face when implementing sustainability practices and to presenting empirical and practical insights on how these challenges can be overcome to support businesses in building capacity.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
