# Sustainability of Rural Areas and Agriculture under Uncertainties

## Message from the Guest Editors

We sincerely invite you to share your wisdom, knowledge, expertise and experiences here to address these uncertainties for sustainable rural areas and agricultural industries. We invite contributions that broach the following aspects:

- Research findings focused on rural systems, agricultural industries, or both.
- A better understanding, measurement or prediction of uncertainties in rural areas and agricultural industries.
- Research findings on how to address uncertainties in rural areas and agricultural industries.
- Reporting on innovative or proven effective research methods (qualitative, quantitative or mixed methods).
- Case studies addressing uncertainties in rural areas and agricultural industries that have regional or international significance.
- Intervention strategies and practices to minimise impacts from different uncertainties.
- Research can also focus on certain aspect/s of rural and agricultural systems, i.e., economic, financial, workforce, environment, water, soil, biosecurity, food consumption, logistics and e-commerce, or rural infrastructures, etc.

# **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
