

Special Issue

Accounting, Financing and Governing Global Sustainability for Businesses and Societies

Message from the Guest Editors

Ensuring sustainable use and management of the globe's rapidly reducing social, economic and environmental resources has, and continues to be, one of the most pressing issues of the 21st century. In particular, the need for businesses and organisations to engage with global and national sustainable initiatives and reforms, ranging from the 1997 Kyoto protocol to the 2016 Paris Climate Change Agreement have become increasingly paramount. However, whilst literature relating to some aspects of sustainability, such as corporate social responsibility has been developed, studies addressing broader sustainability issues encompassing environment, including climate change, social, governance, economic, and finance ones, especially within the accounting and finance research context have yet to emerge. Therefore, this special issue seeks to extend, as well as offer new insights relating to global sustainability within an Accounting, Finance and Governance (AFG) disciplinary research context.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
