

Special Issue

Advanced Modelling Tools to Support Urban and Regional Planning

Message from the Guest Editors

This Special Issue will collect papers that present both theoretical and empirical studies aimed at supporting integrated regional and urban planning. Authors are expected to contribute through the introduction of novel quantitative approaches to address the aforementioned issues with particular reference to their space–time dimension. Advanced algorithms, platforms, and frameworks to describe, model, and visualize these complex geographical phenomena are especially welcome.

Guest Editors

Dr. Federico Amato

Dr. Sabrina Lai

Dr. Alessandro Marucci

Prof. Dr. Beniamino Murgante

Dr. Lorena Fiorini

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
