

Special Issue

Affordable Housing Planning for Sustainability

Message from the Guest Editors

This Special Issue will be composed of a selection of papers addressing a wide range of approaches and tools with the objective of facilitating and improving sustainability in affordable housing. Connecting sustainability and affordability in housing is challenging. Affordable housing is traditionally assessed by economic values, namely linking housing costs to income. However, the importance of affordability in housing exceeds individual households and it has considerable impacts on wider scales such as in the economy, health and sustainability, as well as in specifically addressing the energy poverty problem. About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
