

## Special Issue

# Improvement of the Sustainability of Agricultural Systems through the Ecological Intensification of Cropping Systems

### Message from the Guest Editors

The Special Issue “Improvement of the Sustainability of Agricultural Systems through the Ecological Intensification of Cropping Systems” will present original research articles dealing with the advantages and challenges of ecological intensification in the near future. It will accept contributions on the following themes:

- development of design methods for ecologically intensive cropping systems, in particular methods that integrate the dimensions of space (farm, territory) and time (mid-term, long-term);
- crop modeling to help in the design and assessment of ecologically intensive cropping systems;
- pros and cons of ecological intensification practices;
- our understanding of the ecological processes that occur in ecologically intensive cropping systems;
- integration of ecologically intensive cropping systems in modern agriculture; and
- transitioning from high-input agriculture to nature-based agriculture.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
