"Pandemic Urbanism": Game Changer for Urban Resilience and Sustainability?

Message from the Guest Editors

We welcome contributions which problematize the un-critical and un-political assumptions of current urban policy frameworks (i.e. New Urban Agenda, UN SDG, among others). We note that the modern origins of urban planning in Europe and the US – radical transformations in their time – were brought about by responses to epidemics and pandemics such as malaria and cholera. Then as now, they resulted from intense cooperation of the public health, urban planning and related professions, aligning their goals and perspectives.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
