

Special Issue

Application of Microfluidic Methodology for Sustainability

Message from the Guest Editors

The aim of this Special Issue is to highlight how microfluidics can aid sustainability and sustainable development. The inherent advantages of microfluidic technology over conventional methodologies open up the possibility of addressing key challenges related to sustainability. The scope of the Special Issue is deliberately broad to show the many areas in which microfluidics can be applied. We welcome papers related, but not limited, to: air pollution and climate change; water pollution and sanitation; toxic chemicals and hazardous and radioactive wastes; degradation of ecosystems and species, and concomitant risks to human well-being; sustainable chemistry; new and renewable sources of energy; sustainable energy preservation and regeneration methods; and land and aquatic ecosystem maintenance and biodiversity preservation.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
