Special Issue

Applications of Urban Metabolism and the Progress towards Sustainable Cities

Message from the Guest Editors

This special issue welcomes contributions in urban metabolism-based tools, approaches to city typologies, development of performance indicators, sustainable city policy development and implementation, and urban metabolism analysis under conditions of data scarcity. Finally, authors are invited to submit case studies of sustainable metabolic systems design, development of benchmarks and monitoring schemes. Keywords

- transitions
- urban planning
- sustainable urban development
- sustainable urban metabolism
- decoupling, decarbonization
- Sustainable Development Goals
- sustainable resource use
- urban sustainability
- industrial ecology
- circular economy

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
