

Special Issue

Architecture and Salutogenesis: Beyond Indoor Environmental Quality

Message from the Guest Editor

I want to invite researchers and scholars to contribute to this Special Issue of *Sustainability*, with the aim of forming a solid scientific background to the salutogenic approach to architecture and built environment design, continuing the development of the last 40 years from energy efficiency to comfort to IEQ and, finally, to health.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
