

Special Issue

Assessment of Disparities as a Sustainable Tool for the Improvement of Public Health

Message from the Guest Editors

The emergence of the novel SARS-CoV-2 (COVID-19) pandemic in 2019 has laid bare the enormous global disparities/inequalities that exist in communities and this problem has impacted millions and strained global health-care systems in an unparalleled manner. This special issue seeks to explore, identify, and address the deepened inequalities, among vulnerable and disadvantaged populations and communities within and among countries and how these inequalities have led to disproportionation and decline in public health. This special issue fosters equitable access to economic, environmental, and social protection for sustainable development and global enhancement of public health.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
