

## Special Issue

# Asymmetric Response of Trade Flows to Exchange Rate Volatility

### Message from the Guest Editor

The topical issues of interest include, but are not restricted to:

An asymmetric consideration of exchange rate changes on trade balance using developed or developing economies data; An asymmetric consideration of exchange rate volatility on trade flows in developed or developing countries;

Bilateral trade flow reactions to exchange rate in the face of currency appreciation and depreciation using evidence of both a country-specific and cross-country nature.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
