

Special Issue

Asymmetric Response of Trade Flows to Exchange Rate Volatility

Message from the Guest Editor

The topical issues of interest include, but are not restricted to:

An asymmetric consideration of exchange rate changes on trade balance using developed or developing economies data; An asymmetric consideration of exchange rate volatility on trade flows in developed or developing countries;

Bilateral trade flow reactions to exchange rate in the face of currency appreciation and depreciation using evidence of both a country-specific and cross-country nature.

Guest Editor

Dr. Augustine Chuck Arize

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon
School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
