

Special Issue

Asymmetric Response of Trade Flows to Exchange Rate Volatility

Message from the Guest Editor

The topical issues of interest include, but are not restricted to: An asymmetric consideration of exchange rate changes on trade balance using developed or developing economies data; An asymmetric consideration of exchange rate volatility on trade flows in developed or developing countries; Bilateral trade flow reactions to exchange rate in the face of currency appreciation and depreciation using evidence of both a country-specific and cross-country nature.

Guest Editor

Dr. Augustine Chuck Arize

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
