Special Issue

Atmospheric Processes for Understanding Extreme Precipitation Events and Their Associated Impacts in the Current and Future Climate

Message from the Guest Editors

The increased occurrence of extreme precipitation events is the cause of several damages and impacts over the continents by affecting water scarcity, wildfires, floods, or energetic supply. In a changing climate of future uncertainties, understanding the causes and dynamics that control the occurrence of such events is critical to prevent and manage potential risk over the environment and population. I am sure that with your help, all contributions will provide interesting insights into the scientific world inherent to the field of extreme precipitation events. Keywords:

- climate change
- extreme precipitation
- droughts
- compound events
- moisture transport
- atmospheric rivers
- cvclones
- atmospheric sciences

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
