

## Special Issue

# Awareness, Understanding, and Mitigation Measures of Climate Change Towards Sustainable Development

### Message from the Guest Editors

#### 1. The following are the scope and purpose of this Special Issue: Scope

- A comprehensive understanding of the scientific consensus on climate change.
- The recognition of the economic, environmental, and social consequences of climate inaction.
- Understanding citizens' awareness to address climate change.
- A consideration of the needs of different communities in policy development.
- The integration of climate awareness into all aspects of policy development.
- The creation of comprehensive policies for immediate and long-term sustainability and resilience.

#### Purpose

- Equip policymakers with the knowledge to make informed decisions on climate change.
- Data-driven analytics that supports adaptation strategies for climate impacts.
- Respond to citizens' understanding by policymakers and support for robust climate policies.
- Consider the economic implications of climate change in policy development.
- Ensure a sustainable and resilient future for constituents, protecting the environment, economy, and public health from adverse climate effects.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
