## **Special Issue**

# Fisheries Management and Sustainability

## Message from the Guest Editor

This Special Issue will provide an overview of the most recent advances in the field of fisheries management and their applications in diverse areas. This Special Issue will also contain selected contributions on advances in the synthesis, characterization, and application of multiple topics, including but not limited to, the following: assessment for fisheries management, fisheries management technology, economic analysis for management, marine protected areas, fisheries legislation, fisheries co-management, participatory planning, and new technological applications on fisheries management. We look forward to receiving your contributions.

## **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**
