

Special Issue

The Impact of Citizen Science on Sustainable Environmental Governance

Message from the Guest Editors

The unprecedented problems facing the planetary environment need multiple complex changes at all levels of the socio-economic system. There is a need for new approaches, based on community participation. Ethics, motivation and engagement guide the actors' actions, adapting to their needs and constraints, but maintaining the common values targeting the sustainability. It is a new way of thinking, which requires transformative learning, aiming the empowerment of citizens and transformation of institutions. This Special Issue is meant to share new findings on the subject of citizen science as transformative learning tool in the process of sustainable environmental governance.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
