

Special Issue

Towards Sustainability: The Role of Corporate Social Responsibility in Addressing Environmental and Social Challenges

Message from the Guest Editor

The aim of this Special Issue is twofold: (a) to provide critical perspectives on business/organizational action (or inaction) for sustainability and (b) to highlight meaningful and impactful business action for sustainability and the organizational addressing of environmental and social challenges. Original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Business/organisational action for sustainability: over the years, how in sync (or not) has this been with changing social and environmental challenges;
- Various critical perspectives: a multitude of perspectives are expected, based on various social and environmental challenges created/ contributed to, by business/organisations.
- Positive action by business/organisations: discussions of outputs/outcomes and impacts, for example, the development of sustainability linking technology and its application to address environmental/social challenges.
- Accountability perspectives: case studies/policy analyses/analyses of legal cases relating to business social and environmental impacts.

I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
