

Special Issue

BRICS Soil Management for Sustainable Agriculture

Message from the Guest Editors

This Special Issue focusing on the latest advances in soil management for sustainable agriculture in BRICS countries aims to promote scholarly communications among the BRICS countries, and to share the relevant research achievements with the world. This will be significant for informing soil management for worldwide sustainable agriculture. **Scope (for BRICS countries):**

- Soil organic carbon and nitrogen cycling under contrasting management strategies and global changes;
- Soil management for climate-smart agriculture;
- Soil greenhouse gas emissions and/or carbon footprint under contrasting management strategies and global changes;
- Soil fertility, environment quality, biodiversity and/or ecosystem functions under contrasting management strategies and global changes.

Guest Editors

Prof. Dr. Yilai Lou

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
