

Special Issue

Development of the Sustainable Extraction Procedures of Bioactive Compounds from Industrial Food Wastes and Their Application in the Products for Human Uses

Message from the Guest Editors

This Special Issue, “Development of the sustainable extraction procedures of bioactive compounds from industrial food wastes and their application in the products for human uses”, aims to present the traditional and advanced extraction procedures of bioactive compounds that follow the principles of green chemistry.

The topics covered by this Special Issue include, but are not limited to, the following:

- Sustainable sources of bioactive compounds;
- Utilization of industrial food wastes;
- Energy-efficient extraction procedures of bioactive compounds;
- Advantages/disadvantages of conventional or advanced extraction techniques for recovery of bioactive compounds;
- Application of recovered bioactive compounds in food/cosmetic/pharmaceutical products.

The Special Issue is open for the publication of research articles, short communications, and review articles covering the above-mentioned topics.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
