

Special Issue

Biodiversity 2021: Agriculture, Environment and Wellbeing

Message from the Guest Editors

The Special Issue will include a selection of papers that will be presented at the XIII National Conference on Biodiversity

(<https://sites.google.com/unifg.it/biodiversity2021>).

Because of the COVID-19 pandemic, the conference has been delayed until 7–9 September 2021. Therefore, this Special Issue represents the continuation of the former Special Issue, "Biodiversity 2020: Agriculture, Environment and

Wellbeing" (https://www.mdpi.com/journal/sustainability/special_issues/Biodiversity_Agriculture_Environment_Wellbeing), with which the conference was originally linked. The main objectives of the conference are (1) to examine the urgent issues of biodiversity protection in a scenario of climate change and food insecurity; (2) to disseminate current knowledge on the identification, application, and development of strategies aimed at promoting diversification in natural and anthropized systems, as well as cultural, and food diversity; (3) to increase knowledge on the function, distribution, and abundance of biodiversity; (4) to communicate scientific knowledge on biodiversity.

Guest Editors

Prof. Dr. Pietro Santamaria

Prof. Dr. Antonio Elia

Prof. Dr. Giulia Conversa

Dr. Massimiliano Renna

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
