Effects of Global Changes on Biodiversity and Ecosystem Services

Message from the Guest Editor

Global changes are massively altering world biodiversity and the provision of its related ecosystem services. Land use change, climate change, overexploitation, and invasive species, are considered as prominent causes of the disruption of functionality of both terrestrial and marine ecosystems.....

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
