Special Issue

Bioenergy and Biodiversity

Message from the Guest Editors

The effect of biomass production and bioenergy generation on the environment is a very complex subject, highly site-specific and dependent on, for example, the species, production regime, productivity, supply chain, and energy conversion technologies used. Often, multidisciplinary approaches are required to analyze the existent complex interrelations and integrate different perspectives. The link between bioenergy and biodiversity is being investigated more and more. In the last two decades, the number of research papers that focus on bioenergy and biodiversity has been steadily increasing, but further research is needed to determine the proper balances between bioenergy production and biodiversity conservation in different contexts. In this Special Issue, we would like to publish state-of-the-art studies on the link between bioenergy and biodiversity. We aim at publishing works that have an integrated and multidisciplinary approach to the topic.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
