

Special Issue

Bioenergy and Biofuels

Message from the Guest Editors

The condition of the fuel and energy sector reflects the state of the economy around the world. New technologies in the energy sector and management of its development together with a dynamically changing environment, as well as care for sustainable development and energy security, make the energy and automotive industry the most important sectors of the economy, whose dynamic development has been observed for many years. It should be emphasized that an important factor mobilizing the search for modern technologies, especially in energy and transport, is progressive climate change closely related to greenhouse gas emissions.

This Special Issue of *Sustainability* aims to provide a forum for the exchange of the latest technical and technological information, dissemination of high-quality research results, and presentation of the latest achievements in the field of bioenergy and biofuels, which can contribute to improving the wellbeing of society in the context of sustainable development...

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
