

## Special Issue

# Natural Products and Sustainable Bioresource Recovery

### Message from the Guest Editors

We encourage scientists to submit their latest research findings and review articles focused on compounds obtained from bioresource-derived wastes and by-products, highlighting structural features and bioactivities, from in vitro studies to biotechnological applications. The main foci of the current issue will cover (i) the identification and/or isolation of natural products from plant- and animal-derived wastes and byproducts, (ii) studies on their biological properties, and (iii) research on their application in the crop-protection, biomedical, and pharmaceutical sectors, and as natural ingredients for other fine chemical products (e.g., cosmetics).

### Guest Editors

Dr. Nelson G.M. Gomes  
Prof. Dr. Paula B. Andrade  
Dr. Patrícia Valentão

### Deadline for manuscript submissions

closed (31 March 2021)

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
