

Special Issue

Business Models and Financial Innovation for Sustainable Infrastructure

Message from the Guest Editors

This special issue seeks to invite papers in the following topical areas:

- Emerging public-private partnership models for resilient infrastructure systems
- Digital business models for intelligent infrastructures
- Efficient (data-driven) financing models for digital infrastructure assets, including variable interest rate bonds or securities, risk transfer products.
- Application of fractionalization and tokenization models for sensor-informed data streams in infrastructure.
- Infrastructure finance policies to address climate change

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
