

Special Issue

Blockchain Technology for Enhancing Supply Chain Performance and Reducing the Threats Arising from the COVID-19 Pandemic

Message from the Guest Editors

The primary focus of this SI will be to address the following research questions:

- How will Blockchain technologies help in improving supply chain management?
- What are the challenges for designing and implementing Blockchain technologies in sector-specific supply chains?
- How can advanced decision-making techniques help to enhance the supply chain effectiveness in Industry 4.0 and Blockchain era?
- How will Blockchain technologies integration help to improve the performance of supply chains involved with last-mile delivery?
- How can Blockchain technologies be integrated with Big Data and Industry 4.0 to improve the responsiveness and flexibility of supply chains?
- Will Blockchain technologies affect the resilience of the supply chains?
- How can OR models help to implement Blockchain technologies in the manufacturing sectors to enhance the sustainability of their supply chains?

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
