

Special Issue

Blockchain Technology and Operations Sustainability

Message from the Guest Editors

With this Special Issue, we aim to establish a constant research stream focusing on examining blockchain technology for operations sustainability. This Special Issue seeks to collate recent research in the field so as to facilitate access to this research topic and its progression. Papers representing various methodologies and research paradigms, including, but not limited to, theory-based conceptual papers, empirical or case studies, analytical modeling, behavioral experiments, simulation, literature reviews, and multi-methodological approaches are welcomed. Irrespective of the applied methodology, the criteria for acceptance is the ability to convey new insights of scientific and managerial relevance. Submissions have to follow the journal's regular submission process.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
