

Special Issue

Blockchain for Urban Planning, Architectural Engineering and Construction & Facility Management (UPAEC/FM)

Message from the Guest Editors

In recent years, the Urban Planning, Architectural, Engineering and Construction & Facility Management (UPAEC/FM) sector is embarking on a real digitization path that opens up to a series of challenges. This sector is perceived as slow to innovate and adopt digital technologies as compared to other sectors due to cultural and education/training barriers, lack of in-house experience, skills and motivation, lack of collaboration and information sharing and poor levels of trust between parties. At the same time, today's cities can interrelate vertical services through blockchain, such mobility, IoT, IoE by adopting a transversal system able to transform real time data in information for their city users.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
