

## Special Issue

# Buildings and Sustainable Energy: Technologies, Policies, and Trends

### Message from the Guest Editor

The Special Issue entitled “Buildings and Sustainable Energy: Technologies, Policies, and Trends” will contribute to the research concerning the broader areas of buildings and sustainable energy solutions. Papers are invited on topics including but not limited to sustainable and green buildings, renewable technologies for buildings, energy efficiency solutions, solar PV, solar thermal energy, daylighting, low-carbon technologies, zero-energy buildings, building standards and regulations, sustainable building rating systems, energy retrofiting, life-cycle analysis, and life-cycle costing. Papers on these topics can have a diverse scope (i.e., scientific advancement and technology innovation, policy development and implementation, industrial and commercial practices, and case studies).

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
