Green Building: CO₂ Emissions in the Construction Industry

Message from the Guest Editors

The construction industry is a great contributor to a nation's total CO₂ emissions due to its resource-intensive characteristic and emission-intensive upstream activities. Addressing CO₂ emissions in the construction industry is gaining increasing attention and is becoming crucial for our sustainable future. Although green buildings can mitigate CO₂ emissions of buildings from a life cycle perspective, there is still a lack of in-depth analysis and discussion on their impact on the construction industry's overall CO₂ emissions. This Special Issue aims to present and discuss findings related to green buildings and CO₂ emissions in the construction industry, promoting scientific contributions to sustainability and sustainable construction. In this Special Issue, original research articles and reviews are welcome.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
