Special Issue

To Achieve "Optimizing Logistics and Supply Chain for Sustainable Development Goals (SDGs)"

Message from the Guest Editors

This Special Issue focuses on the strategic actions organizations take to optimize their supply chain and logistics after changing to meet SDGs goals. The purpose is to enhance our understanding of challenges concerning supply chain and logistics that organizations pursuing to meet SDGs needs confront and how these challenges are resolved. Potential topics include but are not limited to:

- The optimization of sustainable logistics/sustainable supply chain;
- The antecedents and consequences of sustainable logistics/sustainable supply chain;
- The risks issues for sustainable logistics/sustainable supply chain;
- The resilience for sustainable logistics/sustainable supply chain;
- The innovation for sustainable logistics/sustainable supply chain;
- The organizational learning for sustainable logistics/sustainable supply chain;
- The collaboration in cross-organizations (sectors) for sustainable logistics/sustainable supply chain;
- The success case of developing localization, agility, and digitization (LAD) characteristics for sustainable logistics/sustainable supply chain;
- The success case of business for sustainable logistics/sustainable supply chain.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
