# **Special Issue**

# Sustainable Animal Husbandry and the Production of Animal-Derived Food: Current Status and Challenges for the Coming Decades

### Message from the Guest Editors

Sustainable livestock farming involves practices that minimize environmental impact, promote the ethical treatment of animals, support local communities, and ensure economic viability for farmers. These practices ensure food security by producing safe food, reducing the depletion of resources essential for production. preserving natural resources and environmental values, lowering greenhouse gas emissions, enhancing carbon sequestration, and upholding the ethical treatment of animals. Globally, these strategies are critical to the health of our planet and the sustainability of ecosystems. This Special Issue will significantly complement the existing literature by presenting the latest research on sustainable animal husbandry and the production of animal-derived food. It will also serve as a unique platform for discussing practical challenges and opportunities related to implementing solutions for achieving sustainable development goals. Therefore, we invite you to contribute to this Special Issue by publishing high-quality research papers, review articles, and communications.

## **About the Journal**

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

#### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
