

Special Issue

Innovative Approaches to Sustainable Governance Development and Strategy

Message from the Guest Editors

We are pleased to invite contributions to our upcoming Special Issue titled “Innovative Approaches to Sustainable Governance Development and Strategy”. Sustainable governance is intricately connected to the evolution of enterprises and industries, as well as to overall socio-economic development. Aligned with the United Nations Sustainable Development Goals (SDGs), the development and strategy for sustainable governance necessitate innovative methodologies for reinforcement. Given the urgency to expedite the realization of SDGs, this Special Issue focuses on exploring cutting-edge insights and transformative strategies for sustainable governance. This Special Issue aims to serve as a collection of innovative ideas and groundbreaking research contributions that profoundly enhance the comprehension and enactment of sustainable governance practices within the framework of industrial growth and innovation. Our objective, through the amalgamation of empirical and theoretical work, is to illuminate how sustainability is incorporated into governance strategies across diverse sectors and how it is converted into implementable policies.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
