

## Special Issue

# Sustainable Solutions for Promoting Occupational Health and Safety

### Message from the Guest Editors

In the last 20 years, there have been major technological advances in fields such as information and communication technologies; robotics; processes based on machine learning; software that enables the processing of large amounts of data (data mining), enabling the extraction of models, behavioural rules and trends; and the sensorisation and modelling of parameters. These advances have fundamentally improved factors such as the efficiency and sustainability of tools for analysing and managing accidents at work, and prevention methods that prevent a greater proportion of accidents and occupational illnesses. In this Special Issue, we would like to invite authors to present innovative and original research that stimulates debate on recent and future trends; on the adoption of solutions for the smart, effective and sustainable promotion of health and safety at work; and on how advances in theories, methodologies and/or related policies can encourage the promotion of the indicated solutions.

### Guest Editors

Dr. Lluís Sanmiquel Pera

Dr. Marc Bascompta Massanés

Prof. Dr. Josep M. Rossell

Dr. Carla Vintró Sánchez

### Deadline for manuscript submissions

closed (20 October 2023)

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
