

Special Issue

Sustainable Practices in Agriculture: Towards a Greener Future of Food Production

Message from the Guest Editors

The aim of this Special Issue is to gather studies that can promote the sustainability of agricultural production cultivated for food production. In this Special Issue, original research articles and reviews are welcome. Research areas may include, but not limited to, the following: sustainable crop production; circular economy on crop production, use of innovative fertilizer, application of carbon farming practices, reuse of organic matrices for plant management, crop management to reduce soil GHGs emissions, application of techniques to improve resilience to climate change, natural based solution for crop protection. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
