## **Special Issue**

# Productivity, Efficiency, and Green Growth for Sustainability

## Message from the Guest Editor

Productivity and efficiency have traditionally been regarded as drivers of competitiveness and development, yet their role in enabling *green growth* and achieving the Sustainable Development Goals (SDGs) is now of critical importance. In an era of resource constraints, climate change, and ecological pressures, productivity gains must be redefined to incorporate environmental and social dimensions. This Special Issue invites theoretical, empirical, and policy-oriented contributions that examine how productivity and efficiency can be aligned with sustainability transitions across industries, regions, and nations. Potential topics include, but are not limited to, the following:

- Concepts and measures of green productivity and eco-efficiency;
- Methodological advances in productivity and efficiency analysis;
- Technology, innovation, and digitalization as enablers of green growth;
- Firm-, industry-, or country-level evidence on the sustainability-productivity nexus;
- Policy frameworks aligning productivity, efficiency, and the SDGs.

## **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

#### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

## Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
