

Special Issue

Sustainable Development Pathway of Corporate Social Responsibility and Economic Efficiency

Message from the Guest Editors

Considering the complexity associated with societal needs, the discourse of individual, collective, and corporate responsiveness remains an important contemporary subject because of its relevance to all human aspects including environment, socioeconomic status, health, and others. Thus, it is suffice to reason that 'Corporate Social Responsibility and Economic Efficiency' is a **necessary** pathway to attaining Sustainable Development. We aim to provide a collection of scientific contributions from authors on the subject of economic productivity, individual and corporate responsiveness, and other human activities in the framework of sustainable development. It is expected that manuscripts should address individual, societal, corporate, and economic activities in the areas of development, health, waste management, land, environmental quality, and innovation.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
