

Special Issue

Sustainable Public Procurement: Practices and Policies

Message from the Guest Editors

This academic journal seeks to explore the role of public procurement in promoting sustainability, with a particular focus on the challenges and opportunities faced by public entities in implementing sustainable procurement practices. The journal aims to bring together interdisciplinary perspectives from scholars, policymakers, and practitioners to advance understanding and provide practical guidance on sustainable procurement in the public sector. Contributions are welcomed on a range of topics related to sustainable public procurement, including but not limited to:

- Best practices in sustainable procurement;
- Approaches to measuring and evaluating the sustainability impact of procurement;
- Strategies for overcoming barriers to sustainable procurement implementation;
- Policy frameworks and regulations to support sustainable procurement;
- Innovative procurement models and collaborations for sustainability;
- The role of public procurement in advancing the Sustainable Development Goals;
- Case studies and empirical research on sustainable procurement in practice.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
