Change Agency in Sustainability Transitions

Message from the Guest Editors

The past 20 years have witnessed a rise in academic interest across the social sciences in exploring the transition dynamics required for societal systems to shift toward greater degrees of sustainability. This body of work is broadly labelled as the sustainability transitions literature (Köhler et al., 2019; Markard et al., 2012; van den Bergh et al., 2011). This is not a uniform body of knowledge, however, nor is it represented by a distinct theoretical framework. The field encompasses a variety of theoretical frameworks spanning the social sciences including but not limited to political science, sociology, sustainability science, psychology, and management (Kemp et al. 1998; Schot and Geels, 2008; Markard et al., 2012; Lozano, 2013). About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
