

Special Issue

Sustainable Cities and Infrastructures

Message from the Guest Editors

The purpose of the special issue is to share knowledge about challenges, barriers, opportunities, and best practices in the development of sustainable cities and infrastructures with special consideration to planning, management, technology, policies, and key sustainability metrics. We are interested in original contributions that explore new trends and possibilities across the globe and demonstrate real case study applications oriented at supporting the Sustainable Development Goal (SDG) framework. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following: Sustainable urban development Decarbonization of cities Building energy efficiency Circular economy in the built environment Low carbon materials and infrastructure Urban heat Island mitigation and adaptation Indoor/outdoor thermal comfort AI technologies in sustainable cities Urban air pollution Post-carbon cities and societies

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
