

Special Issue

Cleaner Production Practices and Sustainable Development

Message from the Guest Editors

The objective of this Special Issue is to contribute to the advancement of knowledge about the adoption of cleaner production practices across different business sectors in industrial and service production and its contribution to the SDGs from a holistic perspective. This Special Issue will bring together recent research work addressing the transformation of business practice associated with the adoption of cleaner production, offering a fresh view on the enablers and the contexts of adoption, documenting the transformation of business processes, product specifications and value models, and exploring the effective implications for multiple SDGs. Research work that explores how diverse social stakeholders, including governments, private companies, academic institutions, and other organizations are engaging the development of sustainable infrastructure, technologies, and processes to advance sustainable transformation are welcome.

Guest Editors

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
